Item no.: 2246-658 <b>€23,232</b> Was: €26,400	Item no.: 2246-660 <b>€16,632</b> Was: €18,900					

## Why should you choose ZEISS eXtended Data technology? Here are your benefits throughout the production process

### Director of Photography

Defining the final look by previsualizing shading and distortion and transferring it to post-production

### Camera Assistant

Automatic detection of the lens, which enables the focus scale without calibration on a lens control system

### Data Wrangler and Digital Image Technician

No chart shooting needed and easy detection of specific shots through classification and search functions

### Visual Effects

Removing or adding distortion and shading for stitching, CGI integration and matching shots

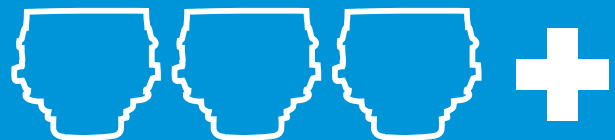

### Editing and Color Grading

Automated image correction speeds through to image optimization

& many more

Would you like to purchase more lenses or personalize your sets with different focal lengths?

Then choose three or more lenses, create your own personal set and save up to €906 per lens.
